

Don't waste my energy!

www.dontwastemy.energy

Neue Umweltprojekte über geographische & kulturelle Grenzen hinweg sind online.

BMS-Teams realisierten Projekte zusammen mit Partnern aus der Schweiz, Indien, Dubai, Kambodscha, Albanien und Interviewpartnern aus Vaduz, Australien, Indonesien. Es entstand wiederum eine fantastische Vielfalt an Kollaborationen und Themen.

Der Erfahrungsschatz ist online – für Dich, die Welt und die zukünftigen Generationen – kommentiere mit!

Ein paar aktuelle Projekte:

Sports nutrition

India, Switzerland

We interviewed professional athletes about nutrition, incl. 2 Swiss skiers, an FC Vaduz footballer, and an Indian cricketer. Their insights aid a healthy, successful sporting journey. ... [scan QR code for article](#)

Secrets of the Coral Reefs

Australia, Indonesia, Switzerland

Embark on a journey to explore coral reefs with an Indonesian snorkeler and an Australian expert. Let's uncover the wonders together! ... [scan QR code for article.](#)

Video games and the environment

India, Switzerland

As 2 passionate Swiss gamers, we conducted an experiment with 3 Indian gamers to measure device electricity usage across games with diverse graphics settings. Check it out! ... [scan QR code for article.](#)

Bottle Bricks – a useful building material

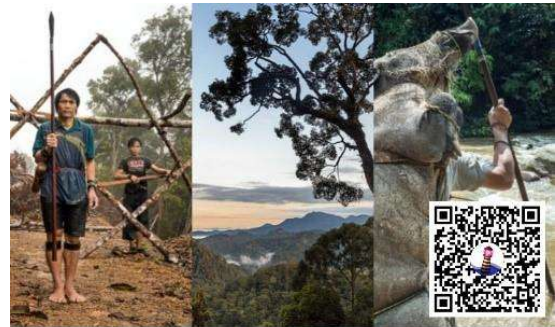

Have you heard about it? Our team conducted a survey and tried to make their own bottle bricks. The experiment was captured in a time-lapse video. Take a look! ... [scan QR code for article](#)

Ecological impact through war in Ukraine

We collaborated with people from Ukraine and discussed about the situation in the conflict area. The main problems are waste disposal, water supply and electricity. ... [scan QR code for article](#)

This project involved collaboration with pilot Rudolf Isenschmid. At the time, he was in Cambodia working with a group against illegal rainforest logging. ... [scan QR code for article](#)

Who are the Penan?

Cambodia, Switzerland

Our Future with Artificial Snow

Interested in winter sports? We researched energy consumption for artificial snow production in ski resorts and compared it with natural snow. ... [scan QR code for article](#)

We were on a mission to bring green roofs to the next generation. We built mini green roof models with children and interviewed a green roof expert. ... [scan QR code for article](#)

Green Roofs: The Return of Nature to the City

2016 wurde das «The Horse» Konzept Im Fach Technik & Umwelt geboren und galoppiert nun um die ganze Welt! Damit grenzübergreifende Projekte möglich sind, haben wir einen Verein gegründet.
